

Middle School Grades 6-8

Atlantic Christian Academy is committed to the integration of faith, love, and learning. Our Middle School program reaches a variety of learning styles and offers a curriculum of exploration as well as providing opportunities for students to develop content understandings and discover their unique study habits and skills. We utilize BEST standards and follow best practices for instruction, including, but not limited to, individual and team projects and presentations as well as the more traditional pencil-and-paper assessments.

Classes are ability-grouped, offering students the pace and track they learn best in. Advanced classes prepare students for high school level math and science classes in Grade 8, while a regular course track will continue to strengthen skills necessary for high school success. Other high school courses may be available for middle school students and include, but are not limited to, HOPE (Health and Physical Education) and Spanish 1.

Middle school students are able to choose electives based on the gifts and talents God has begun to show them. This prepares and provides students with a view of what is to come spiritually, academically, and socially in high school. Unique experiences are created for middle school students to foster class bonding and develop positive friendships. Chapels, small groups, and Spiritual Challenge Week are specially planned for middle school students so topics are relatable and engaging.

"Let your light so shine before men, that they may see your good works and glorify your Father in heaven." Matthew 5:16

Course Selection

As a college preparatory program, the following courses of study are available:

Bible

Biblical Worldview 6
Competing Worldviews 7
Old Testament 8
